

# COMMUNICATION SUPPORT CARD

- The Accessible Information Standard has been developed and launched by NHS England to ensure that information on health and social care is accessible for all, in line with the Equality Act (2010).
- This leaflet aims to inform patients and visitors of the help available to those with an identified information or communication support need which relates to a disability, impairment or sensory loss.

Where possible:

- Information is provided in a way I can understand.
- My notes are flagged with a specific requirement symbol.
