Audiology - Hearing Care

Dedicated, compassionate, professional and responsive
"...we care"

Purchasing hearing aids privately

Patient information

05.2018 Sivantos Limited | JN6283

Audiology Hearing Care provides a free high quality digital hearing aid service. However, if you are interested in purchasing more advanced technology in alternative styles, assistive technology or accessories to help maintain your hearing aids, we now offer the option of purchasing these.

You will be seen by a qualified Audiologist who is also a registered Hearing Aid Dispenser. Our Audiologists have a wealth of experience and will assess your hearing needs to a high standard—you can trust our Audiologists to advise you only of products that would be suitable for you whilst allowing you to choose your preferred option.

In the ear hearing aids can be as small as your fingertip.

Range of cleaning products available to purchase separately (helps maintain aids).

During your initial appointment your Audiologist will discuss your requirements and advise you on the various styles of hearing aid and accessories available. This will enable you to choose your preferred option—with the help of expert guidance.

Your Audiologist will then arrange for the fitting of your device(s), usually within days of your initial appointment; these will be fitted in line with best practise and national guidelines.

Example of assistive device—Roger Pen.

We will provide you with a package that includes a three year warranty*, additional appointments and batteries for the three years.

Price Guide

Three year package of care, including: -

- * initial assessment appointment
- * one or two hearing aids
- * fitting appointment
- * at least two follow-up appointments
- * repair appointments
- * batteries & wax guards over the three years

*some exclusions

How much will it cost?

Including the previously mentioned care package, the cost of two hearing aids would start at £3000 dependant on the level of technology chosen.

Payment will be required at the initial assessment appointment. Alternatively, if you decide not to proceed at that time a charge of £120 will be payable to cover the appointment cost.

Money back guarantee.

We hope that you will be delighted with your new hearing aids, however, we do offer a 60 day money back guarantee.

You will be offered a follow-up appointment within 60 days of fitting the hearing aid. If at this appointment you choose to return your hearing aids you will just be charged for the appointments you will have had so far. For example, an initial assessment, a fitting appointment and one follow-up appointment totalling £300.**

How to pay?

You will need to bring a payment method with you to the initial assessment appointment where full costs will be explained. Payment can be made by card or cheque.***

** prices correct at Jan 2018 and are subject to change

*** American Express not accepted
