

## PATIENT INFORMATION

# Checking you are Okay when you are in Hospital

(Intentional Rounding) – (Easy-Read)

When you are in hospital you might fall over because you are poorly

When you are in hospital you might get sore skin if you don't move around very much.

We want you to stay safe when you are in hospital

We don't want you to fall and we don't want your skin to get sore

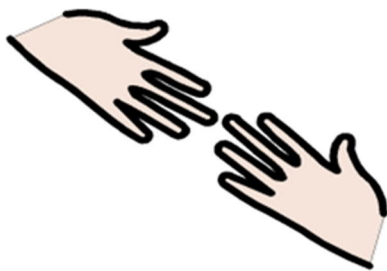

If we think you might fall or your skin might get sore we will check on you lots of times.

# What happens when we check on you

We will ask you some questions and write things down on a checklist

We will help you and make sure you are OK

We will ask if you want a drink

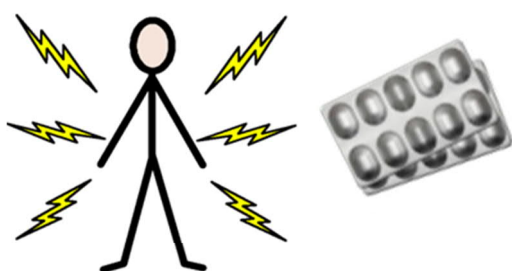

We will ask if you need to go to the toilet

## What happens when we check on you

Staff will check to see if you need bed rails

We will ask if you have any pain and will offer you medicine.

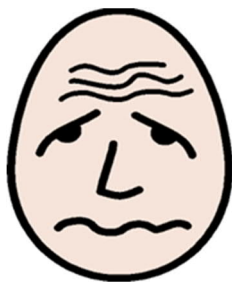

We will help you get comfortable

We will make sure you can reach your call bell

## Planning to go home

If you are worried how you will manage at home please ask to talk to a member of staff

They can give you advice and make plans to help you when you are at home

Thank you for your cooperation
