Medical Directorate COTE Department		Existing	
Name of individual completing assessment		Telephone:	
Jackie Rendle		01803 (6)55601	
1. Aim <i>What are you trying to achieve</i>	Out Patient clinics at Newton Abbot will have easier access to the majority of patients seen by Dr Kelly		
2. . Intended Outcomes <i>What are the intended results?</i>	Improved facilities, easier access		
3 How will you evaluate the outcome?	Looking at data over a period of time, i.e. 6 months		
4a. Is consultation required with the Trust's Equality groups/ PPI?	Yes	No	If yes you need to contact the Equality & Diversity Manager on ext 55803
b. If yes, have these groups been consulted?	Yes	No	If No you need to make arrangements to undertake consultation.
c. Please list any groups internal and external who have been consulted.	Annette Bell		

The Impact – Guidance on completing this table is available on the following page.

Questions	Yes/No	Basis for Decision.	Indicate which of the six equality strands is affected.
5. Will this activity have consequences for local communities or people we employ, partner or contract with?	No		
6. Could these consequences differ for different groups?	No		
7. Will it promote equality of opportunity, positive attitudes to and good relations between different groups and the public participation of different groups?	Yes	Better access to out patient clinics	
8. Will there be a negative impact for disabled, black and minority ethnic people, men, women, transgender and people of different ages, religion or belief or sexuality?	No		
9. Will there be a positive impact for disabled, black and minority ethnic people, men, women, transgender and people of different ages, religion or belief or sexuality?	Yes	New updated facilities	
10. Is the proposed activity likely to affect either our relations with certain groups or relationship between different groups?	No		
11. Is there any evidence that any aspect of the activity will increase health inequalities?	No		
12. Is there any evidence that any aspect of the activity will help to reduce health inequalities?	No		

Positive Impact

- Could the services, strategies, projects or policies have a significant positive impact on equality by reducing inequalities that already exist?
- Consider how it will promote Equality of Opportunity, eliminate discrimination and harassment, promote good community relations and promote and protect Human Rights.

Negative Impact

- Could the services, strategies, projects or policies have a significant negative impact on equality by increasing inequalities that already exist?
- Consider whether it will present any problems or barriers to community groups and/or exclude a particular group of people.

Basis for Decision

- What evidence have you used to reach your decision on your response.
- This may be existing information/data, feedback from informal consultation.
- DoH guidance/reports
- Previous information obtained from undertaking full impact assessments/formal consultation.

The Six Equality Strands

- Disability
- Black and Minority Ethnic people (Race)
- Gender (men, women, transgender people)
- Sexuality
- Age
- Religion or Belief

If there is no evidence that the service, strategy, policy or project promotes equality, equal opportunities or improved relations. You may wish to consider how it could be adapted so that it does.

If the service, strategy, policy or project has the potential to have a negative effect on any of the above categories you will need to carry out a full Equality Impact Assessment. In this instance please contact the Equality & Diversity Manager for support and guidance.
