

## Risk Assessment for Clients returning to Adult Social Care, from IP&C

### Questions to ask :

1. Have you been in Contact/or living with any other person who has a High Temperature (above 37.8 deg C) and/or a New persistent cough/ or Loss or change in the sense of smell or taste?

**YES**

**NO**

2. Does the Client have any of the following:

High Temperature (above 37.8 deg C)?

New persistent Cough?

New onset shortness of breath?

Not being as alert?

New onset of confusion?

Off their food?

Reduced fluid intake?

Diarrhoea and Vomiting?

Loss of taste and/or smell?

**YES**

**NO**

3. Has the Client been identified as a person who is Clinically Extremely Vulnerable from COVID19? *(From 1 August the government will be advising that shielding will be paused. From this date, the government is advising you to adopt strict social distancing rather than full shielding measures. Strict social distancing means you may wish to go out to more places and see more people but you should take particular care to minimise contact with others outside your household or support bubble).*

**YES**

**NO**

**If Yes to Q1** – COVID contact, stay at home and Self-isolate, for 14 days from the first contact with symptoms.

**If Yes to any of Q2** – Possibly has COVID so stay at home and Self-isolate for 14 days, from the onset of symptoms.

**If Yes to Q3** – The Client will have a letter from the GP or government. COVID Shielding stay at home until 1/8/2020.
