Dear Sir/Madam

Request for Information

We are writing to confirm that we have now completed our search for the information you requested.

A copy of the information is below:

A. How many patients have been treated with the following drugs in the past 4 months:

- **Atogepant (Aquipta) – any disease:** 30
- **Erenumab (Aimovig) - any disease:** 69
- **Eptinezumab (Vyepti) – any disease:** 0
- **Fremanezumab (Ajovy) - any disease:** 63
- **Galcanezumab (Emgality) - any disease:** 52
- **Rimegepant (Vydura) – any disease:** 29
- **Botulinum Toxin (i.e., Botox, Dysport, Xeomin) - migraine ONLY:** 197

B. How many patients have you treated in the last 4 months for chronic migraine (15+ headache days per month)

	Chronic Migraine (15+ headache days/month)
Atogepant	
Erenumab	
Eptinezumab	
Fremanezumab	
Galcanezumab	
Rimegepant	
Botulinum Toxin	

We cannot provide this breakdown because we do not record whether these drugs are started for episodic or chronic migraine. The exception is Botox, which is used only for chronic migraine; the patient count is therefore the same as in the previous question.

C. How many patients have you treated in the last 4 months for acute migraine with:

- **Rimegepant (Vydura)**

We do not record whether this treatment is used for acute migraine or prevention. We use all the treatments listed above for all the indications, except Eptinezumab, which we do not currently use because of staffing constraints associated with administering it by infusion.
